

AIRPORT MEMO

To: Chester County Area Airport Authority (CCAAA) Members

From: Gary L. Hudson, Airport Manager

Date: November 4th, 2014

Subject: Airport Hot Topics (November)

For your review, below is a listing of issues affecting the Chester County/G.O. Carlson Airport (MQS).

NEW BUSINESS

Automated Weather Observation System (AWOS): On October 15th, the airport's AWOS was upgraded. On October 26th, the AWOS antenna cable was replaced.

Terminal Building Parking Lot: On October 13th, all of the markings in the "Short Term" and "Long Term" terminal building parking lots were repainted.

Runway Edge Lines: On October 13th, the Runway Edge Lines were repainted.

Trailer Repaired: On October 23rd, the deck was replaced.

Runway Lead-In Markings: On October 29th, the Runway Lead-In markings were repainted.

OLD BUSINESS

Emergency Generator Project: On October 6th, the old gas line that runs between the old generator and the meter was replaced, due to the line leaking out gas. The new line is now connected to both generators. On October 15th, bollards were installed in order to protect the gas line that is connected to the generators. On October 29th, the generators were hooked up to all of the airfield equipment. On October 30th, the electrical shack meter base was replaced.

Equipment Barn: On October 23rd, broken windows and beams were replaced.

Storm Water Drain Project: This project has stopped and will start up again next spring.
